31-2-219. Emergency medical technician's license plates.

(a) Any person certified by the department of health as an emergency medical technician may apply for distinctive license plates for any motor vehicle owned by that person upon registration of the vehicle. These license plates shall be displayed upon the vehicle for which they are issued. The license plates shall bear a distinctive symbol and letters identifying the registrant as an emergency medical technician.

(b) Application for license plates under subsection (a) of this section shall be annually made to the county treasurer as provided by W.S. 31-2-201. A written statement of eligibility, accompanied by a copy of the applicant's current emergency medical technician certification, shall be presented to the county treasurer before a license plate or renewal sticker may be issued. Application forms shall be available at all county treasurer's offices. The normal registration fees and the fee required under W.S. 31-3-102(a)(viii) shall accompany each application. A person issued distinctive license plates pursuant to this section who is no longer a certified emergency medical technician shall apply for regular license plates pursuant to W.S. 31-2-201 before registration of the vehicle expires.

(c) All applications for special license plates provided by this section shall be made directly to the county treasurer at least thirty (30) days before registration of the vehicle expires. The department may prepare any special forms and issue any rules and regulations necessary to carry out this section.

(d) The special license plates shall be the same size and color as regular motor vehicle license plates but shall be designed so as to indicate that the owner of the motor vehicle is an emergency medical technician and need not include arabic numerals for the county.

This act is effective July 1, 2007.
